BOWLING GREEN STATE UNIVERSITY, SEPTEMBER 13, 1937

No. 1

BOARD APPROVES MAINTENANCE OF RESERVE STUDENT AID FUND

Deposit Interest To Yield Extra Revenue

At the meeting of the Board of Trustees of Bowling Green State University, Tuesday, August 3rd, this summer, it was disclosed that some thousands of dollars had accumulated, largely from activity fees of summer students, during a period ending about 1933-34. Action was undertaken by the Student Council-Elect (1937-38) to suggest planning immediately for the use of this money for student activities in a manner intended to make the University more attractive in its extra-curricular activities. They suggested a five to ten year plan.

Money paid in by students as their activity fee is legally different from all other money paid in by them for tuition, laboratory fees, etcetera. Unlike these, the activity fee does not go into the General Fund of the State of Ohio to be re-allocated to the University for specific purposes by the legislature. For this reason, the money can only be spent on student activities.

When the situation was placed before President Offenhauer, he volunteered to verify the information and to carry an acceptable solution before the Board. His plan was approved by the Trustees Friday, September 10.

(Continued on page 3, col. 2)

Williams Ends Quarter Century As B. G. Head

Dr. H. B. Williams' connection with the institution as President expired on August 31st. He was selected as President in February, 1912, and accepted the position in May, 1912. He therefore, served in this office over 25 years. However, he did not come to Bowling Green and assume full time duties until February, 1914. He continued as Superintendent of Schools at Sandusky to the end of the school year of 1912-13 and spent most of the following year in graduate work in Columbia University.

It has been his privilege to see this school grow, under his supervision, from a Normal School and a wild and weedy stretch of land, through a State College, to a State University with buildings, grounds, and equipment valued at two and a half millions of dollars.

On his retirement as President he was given the title of President Emeritus and will continue to serve the institution in some duties that are not administrative. For the present he will be responsible for building operations, the administration of NYA student aid, the student Loan Fund and dormitory reservations. He expects to undertake the organization of the alumni. (Continued on page 3, col. 3)

DR. OFFENHAUER TAKES OFFICE; EXTENDS GREETINGS TO STUDENTS

PRESIDENT R. E. OFFENHAUER

Greetings to the students of the Bowling Green State University

I extend hearty greetings to both old and new students. It is my privilege to welcome you to a well organized and a well established university, and it is with great joy I hear the many expressions of pride in the achievements and the hopes expressed for the continued growth and wider usefulness of this university.

Your succeeding in your college adventure will spell success for the university, and your succeeding is my concern and the concern of our splendid faculty. May we all work together to the end that the purposes for which this, our institution, is established may, in a very large degree at least, be realized.

In this undertaking I want to be your friend and helper.

Sincerely yours,
R. E. Offenhauer
President

NEW REGULATIONS ISSUED BY DEAN

Prof. W. C. Jordon, newly-appointed Dean of Men, is issuing a series of "regulations prescribing the home privileges and responsibilities of students living in private residences". The Dean stated recently that, "these regulations are not intended to restrict the student in his University life, but rather are designed to create a better understanding between the student and his householder, and likewise between the householder and the university administration."

(Continued on page 2, col. 1)

Council Directs Freshmen Week Orientation, Recreation

The Student Council for 1936-37, under the leadership of Frances Woodworth, has completed plans for Freshman Days—Monday, Tuesday, and Wednesday.

Upperclassmen, marked by a black and white council ribbon, are to be stationed at the Men's Gym to direct freshmen and new students to registration, and to guide them to the bookstore. There will be others at various strategic places to give general information.

Monday evening, the Freshman-Faculty Reception will be held in the Men's Gym at 8:30 p. m. Wayne William's orchestra is scheduled to play from 9:00 to 10:30. The feature of the reception will be the signature contest, begun last year. The boy and girl obtaining the most signatures in a given time will each be awarded a plaque at the Rally on Tuesday night at 7:00. Professor McEwen of the Music Department will lead in some group singing. Following the usual procedure, the unruly mob will probably attempt to crash the theatre after the rally.

Wednesday morning, from 8 to 12, council guides will lead tours of the campus for all new students.

Wednesday evening, in the Men's Gym, the Y. M. and Y. W. C. A. are sponsoring a Stunt Party with games and entertainment for all.

(Continued on page 2, col. 5)

LIMA SCHOOL HEAD PROMINENT MAN IN EDUCATION

Nearly Two Score Years In Teaching Field

Dr. R. E. Offenhauer, previously superintendent of Lima public schools, was selected President of Bowling Green State University by the Trustees at the board meeting of Tuesday, August 25. He was selected after the contemplation of a score of candidates as the most acceptable on all points.

Previous to his 13 years of superintendency at Lima, he had been principal of the Lima Central High School. In the teaching field for nearly two-score years, his first important position during this time was at Mount Vernon as principal of the high school. His next position was the principalship of Sandusky High School. Later, he became superintendent of schools in Erie County.

His administration as principal at Sandusky High was under the guidance of President Emeritus H. B. Williams, who was then Sandusky's superintendent of schools.

Prominent in educational affairs in Ohio for many years, he is also now nationally known as the treasurer for the National Education Association.

President Offenhauer received his B. S. in 1903 from Marion Normal; his A. B. in 1905 from Otterbein; his M. A. from Columbia University in 1918. Ohio Northern University made him a Doctor of Pedagogy in 1932.

Personally, the new president is a keen-thinking, active man in his middle fifties. He is very approachable and possesses much of that personal magnetism and energy which are so necessary in his new position. Moreover, he has declared his intention of continuing to adapt the plans and policies of the University to the needs of the student-body.

NEWS TO HOLD OPEN HOUSE

Open house is to be held by the Bee Gee News Staff Thursday evening at 7 o'clock of this week. Anyone who is interested in working on the paper is invited to attend this special session.

Prof. G. W. Beattie, faculty adviser, will discuss some of the general and local problems in publishing a weekly college newspaper.

The new staff will be organized at this time from those who present themselves according to their abilities and tastes. Assignments for the next week will be made, also.

PROGRAM FOR FRESHMAN WEEK

September 13, Monday—

- 8 A. M.—Registration of Freshmen and new students: Men's Gym
- 1 P. M.—Registration continued
- 8 P. M.—President and Faculty Reception, Men's Gym, present Coupon C1

September 14, Tuesday—

- 10:30 A. M.—Meeting of all new students: Men's Gym, present Coupon C2
- 2 P. M.—Psychological Examination. All new students students who do not have on file in the Registrar's Office an Official statement showing that they have taken the O. S. U. Psychological Test and all students desiring an up-to-date rating. Men's Gym.
- 7 P. M.—Rally. University Campus.

September 15, Wednesday—

- 8-12 A. M.—Campus Inspection. Meet in front of Science Building at time specified on appointments card. Present Coupon C3
- 1-5 P. M.—Instruction on use of Library. Main Reading Room, Library. Present Coupon C4.
- 8 P. M.—Y. W. and Y. M. C. A. Stunt Party. Men's Gym, present Coupon No. 1.

September 16, Thursday—

- 8 A. M.—Classes begin.
- 4 P. M. Meeting of all new women. Recital Hall, Practical Arts Building. Present Coupon C5
- 4 P. M. Meeting of all new men. Room 400, Science Building. Present Coupon C5.
- 5:15 P. M.—Picnic for Freshman women sponsored by W. A. A. Meet on Administration Building steps.

Every new student is given a physical examination. Report promptly at the Physical Education Building at the time specified on your Appointments Card. Present Coupon C6.

BOWLING GREEN STATE UNIVERSITY

Meet The President Half Way

This fall we greet a new president. While his excellent knowledge and experience in the field of education prevent his floundering in his administrative duties as a Freshman is apt to flounder in his new environment, he is nevertheless in a new group and adapting himself and his hopes for the University to this group will be difficult.

It behooves us, therefore, to extend the hand of fellowship of common objectives to him, to let him know that we are working with him rather than at him or against him. Let us reciprocate the friendly, willing, helpful manner which he has shown us as in his greeting on the first page.

It is to be expected that we will try to live up to this admonition. We should remember that we are most likely to fail in it as soon as something about the administration does not suit us. College students are notoriously impatient. They fret and gripe at the smallest inconveniences. At first their little complaints are just something to talk about, but after a time they are apt to become real, monstrous, unreasonable prejudices. This must be avoided in order to achieve the smoothest and most progressive functioning of the University. Let us also, then, remember occasionally to think of the new president's difficulties and hindrances and rely upon him to be, ultimately, open-minded and considerate about our viewpoint.

College Is Your Opportunity

It is customary, at this time, for the paper to welcome all new and old students to this nine month's merry-go-round, grind, or well-designed living, as they may variously regard it. Since people generally take it for granted that they are welcome, however, may we do away with this time-honored non-essential and substitute a hope that you all will find what you want here?

This cannot be an El Dorado, Utopia, or Valley of Shangri-La, but everyone should be able to find in it some satisfaction, some work, some guidance to help him climb another step towards better living. Very largely, success in finding these depends more upon our individual effort, willingness, and sociability than upon whatever facilities are here for us to use.

For many of you, this is a new climate with new possibilities and unmeasured dangers. Most valuable, and most precarious, is the opportunity to change and grow—to find a new you. Your best handbook toward success under this lessened restriction normal in college life will be your own clear thinking. Make it clear, keep it clear, and live by it.

NEW REGULATIONS

(Continued from page 1)

He further stated, "Well adjusted student life depends not a little on congenial living conditions. The regulations will be revised and refined as the local situation demands."

While the rules are in general designed to improve living and study conditions by clarifying the responsibilities of the student and householder, both mutually and individually—perusal of them will indicate that their most important feature is the insertion of the Dean of men as arbitrator in all disagreements of householders and students.

We'll make last year's suit look like new.

Prof. Calvin Biery Retires

To Make Hand Writing Cases His Work

Prof. C. J. Biery, who has taught at Bowling Green for 22 years, retired Aug. 31. He was appointed professor-emeritus by the Board of Trustees in recognition of his many years of valued service to the school.

Mr. Biery has distinguished himself as a handwriting expert and is in demand at trials greatly on account of his method of photographing the words in dispute and projecting them on a screen, thus enabling the jury to understand clearly his reasons for declaring a document valid or invalid. He expects to continue in this work in the future. At present, he is engaged on a case involving the validity of a will.

Before coming to Bowling Green in 1915, Prof. Biery received his Bachelor of Science degree from Ohio Northern University in 1889, and his Master's degree from the same institution in 1896. He taught in the rural schools in Pleasant Hills, Coshocton county, was superintendent nine years at Oak Harbor, and at Wauseon for fifteen years. While doing graduate work in Arts and English at the University of Chicago, he was a student under Dr. Freeman, nationally recognized authority on the teaching of handwriting.

School.

Instructor in General Business Administration to be added.

CERTIFICATION REQUIREMENTS CHANGED

Two Year Elementary Course Boomed

I am instructed by the Director of Education, Mr. E. N. Dietrich, to serve formal notice of the intention of the Department to change the requirements for the certification of elementary teachers. The present two-year curriculum will be abandoned for one of four years yielding a bachelor's degree. This notice is in compliance with Section 7805-2 of the General Code of Ohio.

Several implications of this notice are of interest to approved institutions now offering a two-year curriculum in elementary education.

(1) It will not affect individuals enrolling this fall. The group entering in September, 1937, will be the last to receive regular certification on the completion of two years of work. The group entering in September, 1938, will be the first group affected.

(2) The transition from the two to the four-year curriculum will be gradual, probably being complete by June, 1945. Some such expedient as the following will be necessary to avoid drying up the supply of elementary teachers during the transition: Class of September

1937—Graduates June, 1939 Four-Year Provisional Certificate.

1938—Graduates June, 1940 Temporary Certificate, renewable, if 12 hours be done yearly. Four-year Provisional Certificate on completion of 3 years' work.

1939—Graduates June, 1942 Four-Year Provisional Certificate.

1940—Graduates June, 1943 Temporary Certificate, renewable, on condition of 12 hours done yearly toward degree. Four Year Provisional Certificate on receipt of degree.

1941—Graduates with Degree June 1945. Four-Year Provisional Certificate.

(3) The regulations will apply only to new entrants into the field. Certificates issued prior to the ruling are valid.

(4) The character of the changes in the curriculum requirements will be determined by studies conducted by professional groups during the coming year. The state is interested in establishing a sound minimum program that will give ample freedom for experimentation in those institutions best

BOARD APPROVES FUND

(Continued from page 1)

September 1, 1934 the fund stood at \$11,100, and now, three years later, it stands at \$11,789. This means that more was paid in by students during the last three has been used, since the fund is largely in certificates of deposit which are interest-bearing. The interest on these certificates would amount to much more than the increase in the fund occurring in these last three years.

It is President Offenbauer's intention to scale this fund down to \$10,000 and maintain it approximately at that figure. The principal will then represent endowment and the interest on it will be used for student activities. With the growth of the summer school caused by the new requirements outlined by the State Department of Education, the student activity fund will have increasingly more money per capita as time goes on.

Tap Dancing Class Is Announced

The Physical Education Department announces a new elective, open to men and women, in Tap Dancing. It meets Monday, Wednesday, and Friday at 8 a. m. in the Training School gym. One hour credit is given but the course cannot be substituted for any of the required courses in Physical Education.

WILLIAMS

(Continued from page 1)

There are nearly 5,000 graduates of the University scattered all over the world and it will be his problem to locate as many of these persons as possible and gather information about their record since graduation. This will be an enormous undertaking, but the institution owes its alumni its continued interest and support. Likewise it will be an element of strength to the institution to have the close cooperation of its alumni. This will give the public an idea of the duties that are entrusted to Dr. Williams for the present, and by action of the Board of Trustees further allocation of duties or changes in present duties are left to President Offenbauer and Dr. Williams.

Dr. Williams will have an office just south of the Trustees room, entrance to which will be through the old public telephone booth.

If, by reason of his wide experience, there is any way in which he can assist the alumni or others without trenching up on the provinces of other administrative officers Dr. Williams will be glad to be of service.

Dr. Williams will continue to have the services of his former secretary.

ORGANIZATIONS

(A brief outline of the purpose and type of each.)

Foreign Language Club

The Foreign Language Club, which has been organized for the purpose of supplementing the work done in classes, endeavors to bring the students into closer contact with the languages they are studying, and to make more real the people and the lands in which they are interested. It hopes to broaden the student's social attitudes and carry his sympathies and understandings beyond national boundaries. All students who are studying a foreign language are eligible for membership. The meetings, which are held once a month, are both interesting and educational. The group is not only active on the campus, but it has done much toward establishing a friendly relation between student and instructor.

Mathematics Club

Last year Bowling Green State University's Mathematics Club was granted a charter from Kappa Mu Epsilon. This is the first chapter of Kappa Mu Epsilon in Ohio. The club was organized in the fall of 1932 to give students who were interested an opportunity to investigate unusual mathematical topics. The membership is open to all students who have had, or at the present time are enrolled in Integral Calculus, but all interested persons are invited to attend the meetings. At these meetings reports on the attempted solution of famous problems such as the tri-section of an angle and the squaring of a circle are a part of the program.

Inter-Organization

The fraternities and sororities are a vital part of the University social life. In order that complete harmony may exist within the fraternal and sorority life on the campus, the Inter-Fraternity and Inter-Sorority Councils function as regulating and representative bodies. They establish and enforce rules and regulations for governing the activities of fraternities and sororities. They also sponsor the annual University Homecoming Dance.

Welcome student friends,
old and new.

Kindergarten

The Kindergarten - Primary Club aims to promote social and professional growth among the Kindergarten-Primary students of the University. Last year the club affiliated with the National A. C. E. Through helpful and instructive as well as interesting meetings, students become acquainted with special problems in the field and the latest developments. All K-P students are eligible for membership.

Intermediate Club

The Intermediate Club is one of the organizations of this campus for two and four year students in Elementary Education. It was organized with the purpose of promoting the professional and social interests of elementary students. Through the advice and assistance of the sponsors, Miss Lorenz, Miss Day, and Dr. Hoppes, many interesting and worthwhile meetings as well as successful social events are held each year.

Emerson Literary

The Emerson Literary Society is an organization for those students who are primarily interested in parliamentary procedure and public speaking as a means toward intellectual and social growth. Its chief interest or aim is that the members of the society learn how to organize and preside over a public group. Throughout last year the organization concerned itself with solving such types of problems as might arise in conducting a national party convention, presiding over a meeting of a Parent-Teachers' Association, or convicting a prisoner of crime. Membership is open to any student on the campus of Bowling Green State University whose name is submitted and passed upon favorably by a majority of Emersonians.

KAPPA DELTA

The purposes of Pi Kappa Delta, the largest honorary forensic fraternity in the world, are to develop in students the ability to express their ideas clearly and effectively, to stimulate thinking on vital questions, and to promote intercollegiate fellowship and good will.

Students who are interested in forensics should enroll in English 75 for the theory and practice of speech. Intercollegiate debaters must enroll in English 88 this year.

The Band

The Marching Band of the University is an organization active for the promotion of school spirit and enthusiasm in outdoor events. This band plays at the major athletic events held here and in the surrounding district. Last fall the University Marching Band represented this University at Ashland in their annual Homecoming festivities. In the last two years the marching band has been making letter formations at the football games. These formations have been photographed in motion pictures and studied to better this newly acquired activity. Several members of this organization were selected for the Inter-Collegiate Band Festival held at Muskingum College at New Concord, Ohio.

BOOK AND MOTOR

The Book and Motor Society is the honor society of this campus. All departments are represented. The object of this society is the fostering of college spirit and the recognition of merit in scholastic and social fields. The name of the organization is symbolic. The open book stands for knowledge alone, literary and scientific, while the motor represents the industry and progress in applying knowledge to living.

ORGANIZATIONS

(Continued from page 4)

The Student Council is the organization of student government on our campus. It was organized in the spring of 1936 and already has done much to create harmonious student relations. It seeks to unify all campus activity and recommends reforms after studying and discussing the problems at hand. The organization is the official student voice in affairs affecting the students' interests, and is the most powerful student organization on the campus. The Student Council should increase its power and prestige rapidly as our institution grows and develops. Freshmen will be expected to elect three members to represent them on the Council, so be looking for your best representative material.

Women's League

The Women's League is a self-governing organization of college women. Each woman upon registering, automatically becomes a member of the organization. The executive power is vested in the Executive Board which consists of the officers, house chairmen, and organization representatives. In addition to its part in disciplinary matters, it sponsors several social activities throughout the year. Among them are the "Get Wise Party" for Freshmen at the opening of the school year. Later, in December, an all-campus dance, the "Club Continental", is sponsored. In late spring plans for May Day and the crowning of the May Queen are made by the group.

Y. W. C. A.

The purpose of the Young Women's Christian Association is to create friendship and to stimulate leadership among University students. The Y. W. C. A. joins with the Y. M. C. A. to sponsor a mixer Wednesday night, September 15 which helps to acquaint the new students with older students and faculty. This organization also joins with the Y. M. C. A. in giving an annual silver tea at the home of the President, which is a very impressive affair, enjoyed by both faculty and students. Through its various activities, the Y. W. C. A. exerts a beneficial influence on the campus of Bowling Green State University. It is open to all University women regardless of race or creed.

VARSITY CLUB

The Varsity Club is composed of students who have participated in the required amount of inter-scholastic combat, and have been so recognized by being awarded the Varsity letter. Its purpose is to promote athletics, generate fellowship, and create greater and keener interest in the athletic achievements and encounters of this University. It is the aim of this organization to present Varsity blanket awards to graduating Seniors who have done outstanding work in athletics during their undergraduate careers.

Y. M. C. A.

The Young Men's Christian Association is the only Christian service organization on the campus open to any man regardless of race or creed. Its chief purpose is to give balance to the life of the University man. In order to give balance it is necessary to develop the mind through thoughtful discussion groups and by bringing lecturers to our campus, and the body by healthful activities. Its chief objective is to train for Christian leadership.

W. A. A.

The Women's Athletic Association is open to all college women who are interested in physical education. Points are given to the individual members for their participation in athletics. One hundred points is the minimum number for a member. The W. A. A. fosters good health, character, and education. It is a National Society with chapters in nearly all colleges and universities. A large variety of activities are included in the W. A. A. program including such team sports as baseball, volley ball, basketball, tennis, soccer, and field hockey. Other activities include archery, bowling, paddle tennis, ping pong, and shuffle board. This varied program provides an opportunity for every woman to participate in some sport which she enjoys.

GRID PRACTICE BEGUN SATURDAY

Coach Harry Ockerman had nearly 50 men for the first practice session Saturday, Sept. 11. This was the earliest date allowed by the Ohio Conference. Both morning and afternoon drills will be held continuing until Thursday when classes start. With the boys instructed to be in shape and practice equipment on the racks, there will be no delay in getting down to business. With only three weeks to prepare for the first game, there can be no time wasted and real progress must be made from the first day; there will be no week or two devoted to conditioning and the fussing around with equipment which is the case in so many places.

Of last year's fine team, only three men were lost by graduation, but Mitch Wodzinski, a very fine center may find it necessary to enter Ohio State this fall which will be a real blow to the team. He is an engineering student and has completed the two year pre-engineering course offered here.

HOME EC CLUB

The Home Economics Club is a professional organization and a member of the State and National Economics Association. The aims of the club are to broaden vision and provide background in the field of home economics by outside speakers and student programs, to promote sociability in the group and to provide opportunity for training in worthwhile projects of the college and community.

This year's captain will be John Cheetwood of Bowling Green. A veteran with two years varsity experience, John is one of those fellows who really loves to play football. At end, he is brilliant offensively and very dependable defensively. He has the qualities of leadership and the ability to keep close to his teammates that are so necessary for his post.

Danny Clingaman will probably be at the other end. With a year's experience, Dan is a real defensive end. He is a good pass receiver, although not so spectacular as Johnny.

Returning to make a fight for the tackle positions will be Harvey Newlove, Don Brentlinger and Arden Rathbon.

All four of last year's guards will be fighting for the starting positions. Dale Herbert, Matt Dotson, Bob Young, and Bob Mustain are real fighters with both experience and ability.

Mitch Wodzinski played a

Falcons Face Difficult Schedule; Play 8 Games

Hiram To Be First Opponent

The 1937 edition of Coach Harry Ockerman's fighting Falcons will face a very difficult schedule. They play four home games and four away. With a fine team expected and with the new stadium, interest in football is expected to be the greatest in the history of the institution.

The schedule contains one less game than last year; eight games will be played instead of nine. We will face seven of the same opponents we battled last year. Ashland does not appear on our program and we play Baldwin-Wallace instead of renewing last years battle against Western Reserve. This sounds as if we were to encounter nothing different than that faced last year, but this may not be true. The preceding season's record has some effect. Last year teams remembered that we won only from Hiram the year before and expected a soft touch. This year we will be spoken of as a prospectively difficult opponent as we have nearly all of last year's fine team returning. Things undoubtedly will be tougher. Incidentally Bowling Green will not be the only team which will be improved.

On Oct. 2 we play the first game of the 1937 season against Hiram. Many consider this a "breather" but they must consider that Hiram plays Freshmen and with a new coach whose job undoubtedly is to produce better teams, we may expect some tough boys in that lineup. Over confidence may bother us. As this is to be High School Day, we may expect our new stadium filled.

On the next week-end, Bowling Green faces her most difficult task. Our team travels to Berea to battle Baldwin-Wallace, Bowling Green is scheduled as a "warm up" game for those boys. We can really spring an upset by jumping onto them. Even though they defeated Syracuse last year, Coach Ray Watts lost his All-State backs, Noble and Shoen who can't be replaced very easily. If our team can win this one, we will hear cries of "undefeated season ahead" ringing in our ears.

Then we travel to Ypsilanti, Ockerman's Alma Mater. Smarting from their last year's defeat, those boys will be out for revenge. This is another tough battle ahead.

Dedication Day is the important event of the next week-end. We battle Capital and our new stadium will be dedicated. A real day! Incidentally Coach Ockerman will be especially eager to win this game as he has never defeated Capital. His first defeat in his first year here came from those boys and last year, with certain victory in sight, our pass defense crumbled and allowed a long, high pass to be caught for a touchdown and a tie score. Victory would be especially sweet.

Neighboring Ohio Northern will come from Ada trying to add a victory to their record. Coach Lamb always produces a fine team and they will try to gain a victory after the deadlock of last year.

Then the Falcons travel to Kent, our sister-school. We received our lone conference defeat when the Kent team drove down the field early in the game to score the only touchdown of the encounter.

Homecoming is always the big day. Wittenberg will be our guest and we hope to give them another drubbing. Last year Wittenberg was traveling along at a great pace when we gave them a sound defeat there. A great victory before a Homecoming crowd is every team's ambition.

To wind up the season, the Falcons will travel to Tiffin to play Heidelberg. Another of last year's ties, Heidelberg will be a special target and Captain John Cheetwood and the other seniors will exert extra effort to end their college gridiron days with a fine victory.

No matter how the games come out, the Bowling Green fans may expect a real season of football, well played by boys who love the game. It is the duty of the students and the fans to "do their part" to make this the greatest year in Bowling Green's football history.

GRID PRACTICE
(Continued from page 5, col. 4)
great game at center last year. Dick Hagemeyer, with a little experience, is developing rapidly.

At quarterback, the very tough Henderlich is expected to give the crowds some real thrills with his punt returning ability. Fast, experienced, and tough, Tuffy is a colorful player.

Steve Penton, a fine passer, blocker, and tackler, Dale Kuhlman, Pete Pick and Harlan Kinney, bring experience to the halfback positions.

At fullback will be our real triple threat man Wayne Stewart. This lad may be an All-Conference player this year as great things are expected of him.

The crop of Sophomores coming up have caused Doc Lake, the Bee Gee News, students and downtown coaches to become almost lyrical in their praise. Nearly all of them having a lot of high school experience, these boys will see to it that last year's varsity do not get the attitude of "my jobs cinched" and will probably bench some of the older boys.

Bob Bleeks looks fine at end, especially on offense. Marko and Madaras are very big lads who may get in there a lot.

Eddie Siminski looks like a sure thing to hold down a tackle post, and John Klenner looks nearly as good. Keown, Parker, and Amos are other good prospects.

Knecht, Madaras, Clippenger, and Dysinger, guards, will have a fight to oust last year's veterans.

At center Mike Kormazis looks nearly as good as Wodzinski, and he is 30 pounds heavier. He is expected to force himself into the lineup somewhere. Big, experienced and a fighter, he probably will be in there most of the time.

The frosh backs were very impressive. Archie Steele, Rodney Boyer, Paul Miles, Glendale Mohler, and Al Sosky will be real threats for starters. Miles is expected to fill in the hole left by the graduation of Inman in great shape.

McNeil, Welker, Willett, Lowell, and Dehaven are boys,

anyone of whom may blossom out into stardom.

The real way to find out about the team is to visit practice. Hearsay and the newspapers are not as good as one's own opinion. By visiting practice you can find out who the players are, form your opinion of their work, watch the squad develop under the direction of a fine coach, and most important become interested in the football team of Bowling Green State University.
